Key Macro software will be very helpful to those users who want to create a Macro to input one or more keyboard combinations.

With our keyboard Macros application, you can easily create your own Keyboard macros to make your life easier, so that you can run different programs and commands with just a few

---

keystrokes. Key Macro - the program of macros: Key Macro will let you create custom Keyboard macros for Windows Operating systems. You can define the key sequence that will be run when you type a certain key. Key Macro Software is quite easy to use. Just add or remove the defined keyboard shortcuts from the list of the pre-defined ones. Key Macro's main window lets you type the macro you want to define, like a command to run a program, to execute a search on

---

the file system or to paste a clipboard content in the selected text area. Once the macro is saved you can use it with one or more keystrokes. And the possibilities are endless. Key Macro can be easily used to automate any common process that you can perform with keyboard. So if you frequently make repetitive tasks with your keyboard, you should try this software. Key Macro's main features: \* Save and load your macros; \* Create and edit a list of the macros you use frequently; \*

---

Automatically run the macro when you type a key; \* Choose the program that will be run or the file to open; \* Switch the cursor between lines; \* Paste the clipboard content in the text area; \* Set some visual effects to see the system status and receive notifications when a macro runs.

Software Compatibility: Macros can be created using any version of Windows OS. System requirements: Key Macro requires a working internet connection for saving the macros to the server.

---

Key Macro comes with an installation package that installs the software, a help file and several supporting files, including a macro editor and macro server. Main advantages: Key Macro gives you the chance to execute a whole series of tasks or commands with just a few keystrokes. It's really handy for those who are tired of using the mouse for such tasks as clicking on the links, saving files, opening programs, run searches, etc. Key Macro offers a series of commands that are more useful to

---

people who use computers for their work, like code or programming or solving puzzles, so they can enter and edit macros to make typing more efficient. Key Macro is not for casual users who would like to
