1.Web Shield Latest Version: 2.Shield and Shield plus Security extension for Internet Explorer 7 and Internet Explorer 8: 3.Web Shield 4.1: 4.ShieldPlus Security Toolbar Internet Explorer 7 and Internet Explorer 8 5.Actual Shield +: Download please: Aqua Defence Systems, the market leader in anti-virus solutions for Windows, today announced the official release of the 2.0.2 version of its PC Anti-virus, Mobile Anti-virus and Anti-Malware solution. This release includes several important components for end-users, including the integration of the program with Windows Defender (Microsoft's Windows 8 anti-malware), a brand new opt-in social media advertising program called Aqua Defender Direct, and the release of Aqua Sentinel for Android. According to Dan Kurzman, General Manager and CEO at Aqua Defence Systems, "We are excited to release the 2.0.2 version of Aqua Defence PC Anti-Virus, Mobile Anti-Virus and Anti-Malware. The new Windows Defender integration, Aqua Defender Direct for social media, and Aqua Sentinel for Android are some of the features in this release. We also made several behind the scenes improvements to ensure an excellent end-user experience." Aqua Defender Direct for Social Media Aqua Defender Direct is a brand new program developed by Aqua Defence Systems for the purpose of providing an additional layer of anti-virus protection on Windows 8. In essence, Aqua Defender Direct provides end-users with additional functionality and information about malicious activities on the Windows 8 operating system, such as online advertisements, web searches, app downloads, and social media site activities. This program gives end-users an additional, informative way to monitor their device and the web in addition to their primary antivirus solution. The Aqua Defender Direct program combines metadata-driven, semi-automated and unsupervised reporting with user-defined manual monitoring. All this information can be downloaded into an Excel report, sent to an email address, or saved to a USB drive or pen drive. The data is then made available to the end-user in order to help them determine whether or not a particular web site is malicious. Aqua Defender Direct helps users optimize their security experience, but also helps corporations gain insights into client devices or target audiences in order to drive better business decisions. Aqua Sentinel for Android Aqua Sentinel for Android is a new anti- b7e8fdf5c8
